Setup Guide

Version 1.0 | © 2025 Fenguard VPN

Welcome to Fenguard VPN!

Thank you for choosing **Fenguard VPN**. This guide will help you set up your VPN in minutes.

What You'll Need:

- A **Fenguard VPN subscription** (you're all set!).
- The **WireGuard app** (free for all devices).
- Your **unique config file** (from your dashboard).

Why Fenguard VPN?

✅ **French IP Address** – Access local content from anywhere.

✅ **Military-Grade Encryption** – Your data stays private.

✅ **No Logs** – We don't track your activity.

Step 1 – Download WireGuard

[INSERT IMAGE 2] Download WireGuard for your device:

| **iOS** | App Store | | **Android** | Google Play | | **Windows/macOS/Linux** | Official Site |

(Optional: Add QR codes for iOS/Android downloads.)

Step 2 – Get Your Config File

[INSERT IMAGE 3]

1. Log in to your **Fenguard VPN Dashboard**.
2. Go to your active subscription.
3. Click **"Download Config File"** for each device.
   - **Important:** Each config file works on **only one device**.

Step 3 – Import the Config File

[INSERT IMAGE 4]

Mobile (iOS/Android):

1. Open WireGuard.
2. Tap **"Add Tunnel"** → **"Scan QR Code"** (if using QR) or **"Import from File"** (if using `.conf`).
3. Select your downloaded config file.

Desktop (Windows/macOS/Linux):

1. Open WireGuard.
2. Click **"Import Tunnel(s) from File"**.
3. Select your `.conf` file.

Step 4 – Connect to the VPN

[INSERT IMAGE 5]

1. Toggle the switch to **activate** your VPN.
2. Verify your connection at whatismyip.com.
   ○ You should see a **French IP address**!

Device Management

Your subscription supports **3 devices at once**.

Adding a New Device?

1. **Remove** the VPN config from one of your existing devices (delete the tunnel in WireGuard).
2. **Download** a new config file from your dashboard for the new device.

⚠️ **Never share or reuse config files**—each is tied to one device.

Troubleshooting

Issue

Solution

VPN won't connect

Check your internet, restart WireGuard, or reinstall the config file.

Slow speeds

Test your base speed, close background apps, or restart your router.

Can't access some sites

Clear your browser cache or disable IPv6.

Still stuck? Email support@fenguardvpn.com.

FAQ & Support

Frequently Asked Questions

Q: Can I use Fenguard VPN on more than 3 devices? A: No, but you can replace one of your existing devices anytime.

Q: How do I update my config files? A: Download the latest file from your dashboard and re-import it.

Q: Is my traffic logged? A: No. We follow a strict [no-logging policy](#).
